Teletrauma CHUC

- **Eduardo Castela**
- Francisco Matos
- Filipa Madeira
- Carlos Seco
- Francisco Matias
- Gustavo Santo
- Manuela Mota Pinto
- Marta Bronze
- Ricardo Mota
- Eládio Cardoso
- Rui Gomes

Objectivos

Rede regional:

- Diminuição mortalidade zonas remotas;
- Diminuição tempo de intervenção;
- Alocar, tecnologicamente, o médico especialista no cenário de trauma;
- Fomentar maior segurança no transporte de doentes de trauma.

Experiências anteriores

- Via Verde AVC

Desde janeiro de 2015 até dezembro de 2017, o projeto Via Verde AVC do Centro já realizou **1178 teleconsultas** que contribuíram, de forma significativa, para a melhoria do resultado clínico e funcional dos doentes com AVC na região Centro.

- **Telemedicina de urgência de cardiologia pediátrica**

- Actualmente, o projeto telecardiologia pediátrica e fetal do CHUC realiza uma média, de **3600 consultas/ano**;
- De 2006-2014, isto representou uma poupança em deslocações de **498 884 €** e uma valorização financeira **2 128 968 €**
- De 2006-2014 foram efetuadas **425 teleconsultas de urgência**;

Modelo

Trauma Tele-Rounds

International Trauma Tele- Grand Round

Blunt Injury to Airway

PRESENTER: Mariana Moscardi, MD
TITLE: Telemedicine and Trauma Researcher
AFFILIATION: University of Miami Miller School of Medicine
DATE: 03/02/2018
TIME: 8 AM
PLACE: Ryder Trauma Center, Rm T208

OBJECTIVES:
At the conclusion of this activity participants will be able to:

- Analyze the management of airway trauma
- Evaluate the diagnostic and treatment of an injury to airway
- Assess the complications of the airway treatment

FACULTY DISCLOSURE
Dr. Moscardi has indicated that she has no relevant financial relationship with commercial interests.

PLANNING COMMITTEE DISCLOSURE
Dr. Martos and Mrs. Nessl-Brandow have indicated that they have no relevant financial relationships with commercial interests.

All conflicts of interest have been resolved.

TARGET AUDIENCE:
Primary care physicians.

ACCREDITATION:
The University of Miami Leonard M. Miller School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

CREDIT DESIGNATION:
The University of Miami Leonard M. Miller School of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

International Trauma Tele-Grand Rounds

Corrosive Acid Injury

PRESENTER: Dr Ravi Kumar TS
TITLE: Associate Professor
AFFILIATION: Sri Venkateswara Institute of Medical Sciences (SVIMS), Tirupati, Chittoor (DT), A.P., India
DATE: 03/16/2018
TIME: 8 AM EST
PLACE: Ryder Trauma Center, Rm T208

OBJECTIVES:
At the conclusion of this activity participants will be able to:

- Explain and understand the management of acute corrosive injury
- Analyze indications for surgical intervention
- Examine various damage control surgical options in extensive corrosive injuries

FACULTY DISCLOSURE
Dr. Kumar, has indicated that he has no relevant financial relationship with commercial interests.

PLANNING COMMITTEE DISCLOSURE
Dr. Martos and Mrs. Nessl-Brandow have indicated that they have no relevant financial relationships with commercial interests.

All conflicts of interest have been resolved.

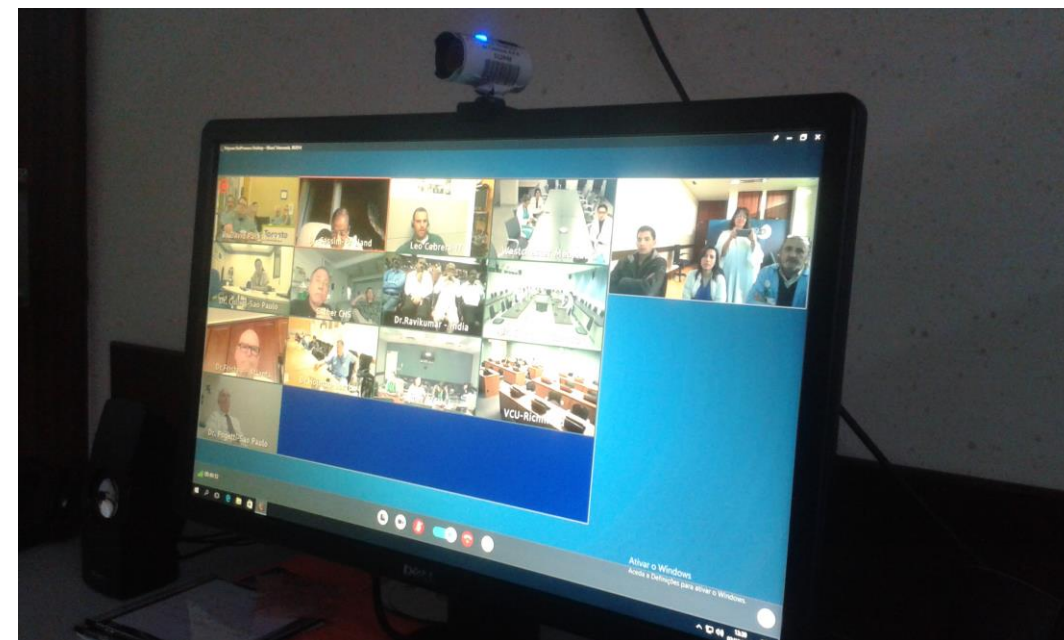

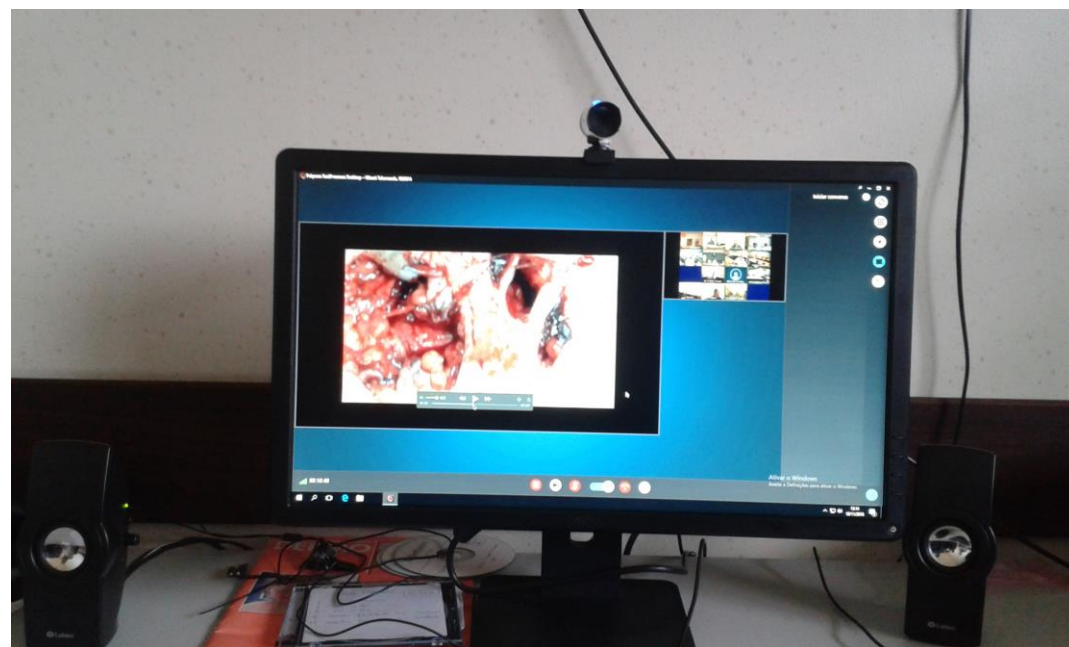

TARGET AUDIENCE:
Trauma, Surgery and Critical Care Physicians.

ACCREDITATION:
The University of Miami Leonard M. Miller School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT DESIGNATION:
The University of Miami Leonard M. Miller School of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Lançamento do programa em 2017

Governo elogia TeleTrauma dos Hospitais de Coimbra para integração dos cuidados de saúde

17-02-2017 12:28 | Política
Porto Canal com Lusa

CHUC aposta em telessaúde para integração dos cuidados.

O Secretário de Estado da Saúde, Manuel Delgado, referiu que o programa TeleTrauma do Centro Hospitalar e Universitário de Coimbra (CHUC) é uma forma de integrar cuidados de saúde, beneficiando o doente, durante a cerimónia de apresentação do projeto, que decorreu na semana passada, em Coimbra.

Conclusões

Telemedicina em trauma

- Melhoria nos cuidados à vítima de trauma, em tempo útil;
- Custos controlados;
- Aplicação de experiências anteriores a um novo modelo.
